NEW YORK

ENGINEERING NEWS-RECORD

INDEX TO VOLUME LXXIX

July 1 to December 31, 1917

A

Activated Sludge e 481, 522, e 817, 829, 840
Are fine screens needed for the process (G B Gascoigne) e 1072
Discussion (T C Hatton) e 1072
Cleveland postpones action on test screens for a year 1128, 1129
Dewatering sludge at Urbana sewage station 269
Not recommended for Cleveland 312
Plans at Brockton n 551
Plant at Folsom (Cal) state prison in operation 1127
Plants in many countries n 987
Society of Chemical Industry publishes papers on n 940
Syracuse tests two methods of treatment 1201
Tests made by California cities *1009
To solve waste problem (L Pearse) 777
Advertising for engineers of the road-building regiment e 796, n 810
Airplane production problems of vast magnitude (W F Durand) a 1124
Airplane sheds have special construction and door equipment *447
Akron water-waste survey detects loss in large meters *462
Alabama paid foremen superintend road tax workers 395
Alarms, automatic fire and other alarms and signals e 289
Alaska glacial silt erodes tips of waterwheels n *229
Alaska has limestone deposit n 464
Alaska wireless station n 424
American machinery needed in Scotland after the war 815
American Society of Civil Engineers e 907, e 909
Addresses at welcoming meeting a 1144
Engineering society service and organization e 1138
Guarantees German hospitality for engineer troops n 213
Hunt, C W, on News-Record editorial e 1086, 1091
War activities and journalistic criticism 1091
Welcomed to new home e 1085
Engineering work of E D Leavitt (F W Dean) 1171
Motion to develop means for training mechanics a 1123
War service keynote of annual meeting 1122
On tar testers 231
Amer Soc for Testing Materials e 1, e 2
Abstracts of convention reports a 14-16, a 60-61
Adopts standard screen 38
Bixby, Gen W H, president-elect 11
Convention 11
Dues of soldier members remitted by society n 1080
In joint Committee on Concrete and Reinforced Concrete e 291
Measuring distribution of vertical loads through earth fills *116
New specifications adopted h 715
On tar testers 231
Requires fineness in hydrated lime n 602
American surveyor in the Philippines (J W Evans) *157
Anderson, W P, on higher shear values in concrete designing *749
Anheuser-Busch beer bottling and shipping plant (W J Knight) 772
Anthony, C G, on mineral water and barometric levels at Saratoga Springs *56
Appliances and Materials n *862
Grab bucket sheaves easy to change n *862
Leyner shank and bit punch n *862
Leaks closed by non-calked pipe joint filler n 1224
Repair part orders should have better attention (L W Shipman) e 421
Applied mechanics (A P Poorman) 131
Appraisals of utilities suspended by war e 434
Aqueducts, Catskill, Hetch Hetchy and Shandaken e 483, n 522
Catskill, reforestation along (F F Moore) 60
Arch designing, approximate methods desirable (J B Cox) 272
Architects must register in Wisconsin 307
Areas of segments of circles n *470
(I P Church) 1 657, 1 1072
(L Pistner) 1 894
(L H Doolittle) 1 981
Arizona copper town outgrows water and sewage systems 825
Army camps require vast amount of construction material 156
Arnold, Frank P, on frost breaks in macadam roads due to inadequate drainage *933
Asphalt
Asphalt for damp or waterproofing a 13
At Louisville cantonment (D T Pierce) 1 893
Aztec asphalt for paving at Columbia cantonment (J R Drancy) 1 983
Bids in small towns should separate items for plant and paving (D T Pierce) 956
Bituminous foundations for sheet asphalt surfaces (S H Lea) 1 83
(G B McGrath) 1 369
(H W Roberts) 1 370
(L B West) 1 420
(L Kirschbraun) 1 *467
(H W Skidmore) 1 610
Asphalt (continued):
(Roy N Green) 1 610
Industry prosperous 77
Asquith, Cyril, on supplying skilled artificers for English army and navy 960
Associated Factory Mut Life Ins Co plans fire and load tests for columns *215
Associations
Amalg Assn of Street and Elect Ry Employees of Amer *1103
Amer Assn of Engineers organizes three chapters 571
W H Finley addresses 318
Amer Assn of Engineers, Chicago, to serve individual members e 1138
American Assn of State Highway Officials 1093, 1099
Action by e 1087
Breed, H E, on changes needed in design and construction of highways 1151
Cooperation between all official bodies for next year's work 1130
Influence of e 1087
Page, L W, address on Federal Aid Road Act 1148
Richmond plan of war highways e 1139
Amer Highway Assn disbanded n 854, e 863, (J M Goodell) 870
Amer Medical Assn on typhoid fever 723
Amer Public Health Assn e 769
Abstracts 777
War program 811, 817
Amer Ry Bridge and Building Assn n 813
A R E A committees and work assigned to each 155
Amer Water-Works Assn
Report on depreciation 688, 753
Richmond convention (D R Gwinn) 1 275
Specifications for cast-iron piping e 97, 109
City Managers' Assn Detroit convention e 995, 1035
Concrete Assn and Concrete Institute join in barge designing 1126
Cremation Assn of America protests against words e 433
Natl Founders' Assn meeting e 951
Natl Lumber Mfgs Assn 793
On the labor problem (John Lind) n 1125
Reports less lumber cut than last year n 1204
New England Water-Works Assn specifications for cast-iron piping e 97, 109-114
Roadmasters and Maintenance-of-Way Assn on rail inspection 741
Salt River Valley Water Users Assn gets reclamation project n 1220
Rail inspection 741
South Appalachian Good Roads Assn proposes an engineer cabinet member n 857
Southern Pine Assn campaign to increase output n 1173
Water-works associations coöperate e 433
Atch Top & S Fe Ry broken stringers show safe stresses 256
Atlanta fire lessons for city officials and engineers 159
Austin water-supply "gift" may prove expensive (J A Montgomery) 1056, 1152
Australia favors automatic signals h 1077
Auto eductor used to clean Chicago catchbasins *1019
Automobile and team costs compared n 228
Operating costs (J L Harrison) 1 82
Automobiles facilitate survey work 36

B

Baffled flow data needed e 434
Baffles, step, hold hydraulic fill under piers (P B Burkhalter) *166
Baillie, J H, on diluted skilled labor and women in industry 958
Baker, M N, on fifteen years of engineering literature 934
Bantrell, M A, on sprinkling filters under ice *506
Barbour, F A, on cast-iron pipe specifications e 109
Barge moved a mile on high blocking h *87
Barge, self unloading, distributes coal for Milwaukee plant 511
Barker, Harry, on Quebec bridge *580, e 579
Bartholomew, H, on St Louis major street plan *100
Beck, James Peter e 817, n 859
Biles, G H, on road maintenance in Penna 1101
(L B West) 1 420
Bituminous foundations for sheet asphalt surfaces
(S H Lea) 1 83
(G B McGrath) 1 369
(H W Roberts) 1 370
(L B West) 1 420
(L Kirschbraun) 1 *467
(H W Skidmore) 1 610
(Roy N Green) 1 610
Bituminous joint brick pavement preferred in Ohio 605
Bixby, Gen W H 11
Black, Maj-Gen W M, on military roads 1097
Blast for concrete material, special loading and fixing *446
Blast-furnace construction in America (J E Johnson) 129
Blueprint table has several functions (C B Coe) n *277
Blueprints, holder for prints, charts, etc n *1180
Blueprints mounted on muslin (Milton Harris) 614
Bock, F L, on pumpage distribution of water in force mains and laterals 76
Bids, tentative, for estimates, how secured n 701
Boiler compound coats metal 48
Boiler law, uniform, adopted by nine states and two cities 286
Bolling, C E, on Richmond immense combined sewer *646
Bolt heads and nuts (F D Buffum) 1 468
Note Editor
Bolt heads smaller than nuts (G E Thackray) 1 639
Bond, Maj P S, on military roads 1097
Bonnet, Frederic, Jr, on Worcester's garbage disposal piggery *396
Books Reviewed
American hydro-electric practice (W T Taylor) 323
British standard specifications for cast iron pipes (British Eng Standards Committee) 1168
Business law for engineers (C F Allen) 940
Calculations for steel-frame structures (W C Cocking) 127
Electrical testing (F M Farmer) 128
Empirical formulas (T R Running) 940
Engineering work of E D Leavitt (F W Dean) 1171
Excess condemnation (R E Cushman) 751
Graphics (H W Spangler) 1169
Handbook of clearing and grubbing methods and cost (H P Gillette) 323
Handy volume on trench warfare (J S Smith) 127
Hints on landscape gardening (Prince von Pückler-Muskau) 752
Ingenieria de ferrocarriles (V L Havens) 1168
Irrigation works constructed by U S Government (A P Davis) 939
Liability and compensation insurance (R H Blanchard) 1170
Malingering and feigning sickness (Sir John Collie) 1170
Materials of engineering (H F Moore) 940
Mechanical drawing problems (C W Weick) 1170
Mechanical properties of woods grown in United States (J A Newlin) 752
Operation and maintenance of irrigation systems (S T Harding) 938
Portland cement industry (W A Brown) 325
Practical street construction (Municipal Journal) 751
Principles of iron founding (Richard Moldenke) 1169
Public utility rates (Harry Barker) 322
Railroad construction theory and practice (W L Webb) 752
Railway estimates, design, quantities and costs (F Lavis) 128
Report on street improvement in Ontario (W A McLean) 325
Salton Sea, The (George Kennan) 325
Sanitation practically applied (H B Wood) 326
Selected bibliography of ports and harbors (W J Barney) 940
Teaching English composition to engineering students (H A Watt) 937
Topographical drawing (E R Stuart) 325
Water chlorination
(Mich State Board of Health) 1169
Water filtration
Wharves and piers (Carleton Greene) 325
Boston garbage lowered by war conditions *1092
Boston paves congested square with grouted granite block *680
Boston protects water supply of large district at sources 837
Boston Society of Civil Engineers reports on status of members 875
Bowers, N A, on construction work at Camp Lewis *650
Bracket support for upper floor of concrete building *827
Brass and Copper
New facts concerning (Discussion) a 61
Typical deterioration of (Bu of Standards) 940
Brazilian port and railway 776
Breakwaters protect Chicago's municipal pier *162
Breckenridge, L P, on engineers and the fuel problem a 1125
Breed, H E, president-elect Amer Road Builders' Assn n 901
Brick
Fast work in laying pavement h *329
Hoist made from corner of scaffolding in building steeple (J J Grossman) h *1031
Monolithic brick pavement faulty joint construction (C P Mowry) 1 319
Discussion (W C Perkins) 1 319
Pavements suffer from concentrated pressure (A H Hinkle) *1057
Thin-base monolithic used to resurface old brick road (H H Edwards) *830
Bridges
Akron bridge specifications have special features 661
Alaska test well sunk through ice *394

*, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

322080

Bridges (continued):
Another N Y City East River bridge suggested 971
Bascule bridge erected as a cantilever (W J Howard) •170
Bridge of 3000 feet moved endways n 989
California iron bridge fails after 40 years n 903
Camden (Ark) pier defective foundation •484
Cantilever concrete bridge has suspended link •224
Cantilever over Ohio River, locomotive cranes used •104
Century old bridge in Lancaster covered with cement-gun mortar (R L Kell) n •516
Chattanooga bridge, a statement (B H Davis) 1 371
Cofferdam of old rails around piers h •281
Concrete preferable to steel for arches 73
Counter settling of approach fills (Willis Whited) 1 374
Culvert pipe used as basis for floor system n •423
Decoration of white tile on Ohio concrete bridge •421
Defective concrete bridge floor surfaced with brick 1002
Designing the Metropolis span e 1138, •1140
Fire destroys old bridge at Little Falls (A T Clark) 1 •611
Floating dock on concrete pontoons, Zürich •848
Floor beams have pin bearings •1007
Floors of concrete slabs on steel beams (W Snaith) •65
French engineers span Aisne River under shell fire (R A Drake) •998
Guarding against overstressed counters (P E Stevens) 1 419
Harlem River draw is 389 ft (not 310 ft) long n 451
Heaving and settling back caused by freezing ground (H J Gilkey) •360
Jacking grip pulls bridge pins (E S Needham) h •811
Kentucky Dept of Public Roads has standard designs 255
Loads to steel stringers distributed by concrete floor slabs (C T Morris) 1 803
Locomotive crane in bridge building e 194
Locomotive crane at Metropolis and Stubenville e 194
Manhattan bridge N Y City approach •119
Maximum live load pier reactions for (F R Sweeney) •1098
Movable bridges actuated by gasoline motors n •710
N J capacity must be posted to warn truck drivers n 277
New Union Pacific drawspans at St Joseph 780
N Y Central sets long plate girder •1202
Old steel spans supported while building arches beneath (R W Gearhart) •568
Old stone arch in Illinois has curious wing walls n •372
Ore dumped to barges through St Paul bridge •638
Overflow road approach to •492
Pier replacement using simple jacking platform (R T Brown) h •375
Pinned floorbeams not new in Holland (H B J Aikema) 1 1214
Pittsburgh bridge raising pushed by War Dept n 858
Points in steel-bridge maintenance •405
Pound price bidding injures bridge engineering e 530
Quebec bridge 570, 571, •726, n 1079
Hoisting arrangement •584
Suspend span successfully hung (H Barker) e 579, •580
Salem bridge, twenty-four designs wasted •876
San Domingo steel bridge built under adverse conditions (E S Needham) •353
Sawtooth form of expansion joint for •1160
Slipping abutment saved (R T Brown) n •424
Small railway bridge displaced by earth pressure 256
Stakeout simplified by clear notes (E P Arneson) n •469
Steel arch to replace famous cantilever 307
Stringer expansion joints reduce floor beam stresses 883
Submerged steelwork protected •1195
Sunken span raised with jacks and threaded rods (S Standish) h •663
United States issues total figures for public bridges in 1916 681
White structures seen at night •661
Wide roadway of Cleveland bridge concreted cheaply •121
Wire mesh instead of cable in a Western suspension bridge •1026
World's greatest at Quebec, men who built it •726
Worn pin bearings repaired under traffic (H T Welty) •244
British cities build municipal garbage piggeries •880
Town planning n 645
British engineers and founders agree on specifications for pipe (D H Thomson) 1 559
British Ministry of Munitions, Labor Division e 951, 957
British Road Board report 873 e 863
British ships standardized n 1047
Brooklyn Rapid Transit Co concrete plant places backfill h 808
Brush exhibition building, N Y City, simulates tower •724
Buehler, Walter, on creosoted block and hardened pitch roads •1165
Buffalo industrial valuation for tax purposes quickly made (G E Barrows) 164
Buffalo structural shop has well-planned framing and layout •362
Building estimators' reference book (F R Walker) 563
Burdick, C B, on filtration for typhoid at Niagara •440, 1 611
Bu of Buildings, Portland, on strength of wire nails in fir 1 1211
Bu of Mines prepares gasoline specifications n 279
Bureau of Standards
Bulletin on brass deterioration 940
Gas calorimeter tables n 86
Plans fire and load tests for building columns •215
Steel tape (D P Babcock) 1 984
Tests effect of hydrated lime on concrete n 328
To test cement for Reclamation Service n 188
Burrows, C W, on some applications of magnetic analyses to study of steel products a 60
Business pledge of Chamber of Commerce at war convention e 577

C

Cafeteria idea works well in contractor's camp h •377
Calculations for irregular street intersection areas simplified (R B Gladding) •265
Calculations, rapid methods for (H S Jacoby) 1 1075
California Dept of Engineering urges better state supervision of dams n 637
California reservoirs show little capacity loss (Edward Bowen) •169
California small towns get together on the water problem 884
California tests show how the surface of a road affects tractive effort •367, e 337
California utility companies expend more than railroads on extensions n 1049
Camden (Ark) bridge pier fails from defective foundation •484
Camp builders in Canada have simplified organization •652
Camp bunkhouse, Ayer cantonment h •232
Camp bunkhouses (A M Shaw) 1 •226
Camp materials distributed by team, truck and railroad e 482
Camp payrolls made up in sections at Columbia •521
Camp roof trusses easily built n •229
Camp stump pulling by Ford cars with cleated wheels h •473
Camp warehouses of plank construction •1159
Canada creates freight cars by coöperation n 172
Canada purchases and loans to help the railway situation e 482, n 522
Canada seeks to use more Niagara Falls power n 670
Canadian camp builders have simplified organization •652
Canadian Northern Ry Montreal station n •476
Canals
All American canal for Imperial Valley, Cal 1010
Barge canal may become a ship canal 339
Barge canal now or never e 146
Cape Cod canal engineer drafted by George Washington n 557
Dredge, home made, reduces cost of construction •1147
Excavating to accommodate spoil from dump scows h 809
Imperial Valley and Laguna dam to be connected n 1176
Lake Washington Government canal opened n •141
N Y State barge canal hampered 818
Panama slides under control n 1207
Prospects of navigation on N Y barge canal (F C Wight) • 348, e 339
Reinforced concrete sill foundation for brick bank protection 889
Savannah to annul Kayton contract n 429
Simplified cross-section for (V Wood) n 804
Syracuse canal terminal over old salt flats •548
Traffic increasing on Panama Canal n 556
Welland ship canal 32
Cannot make shipmen of carpenters over night (J W Richardson) 1 81
Cantilever concrete bridge at Detroit has suspended link •224
Card file to show location of water mains, connections and valves •1071
Carter, Z W, on high prices and excessive profits 106
Carnegie Steel Co builds covered concrete channel for creek 17
Cast iron pipe specification controversy 1 109-114
Catskill aqueduct accepted by N Y City n 763
Catskill aqueduct builders, an appreciation •676
Catskill Shandaken tunnel, water supply system, contracts let e 481, n 522, n 620, e 951
Cement
Bu of Standards to test for Reclamation Service n 188
Cement and clay sewer pipe a 12
Cement and concrete aggregates a 12
Committee report a 12
Hopper on baggage truck, sacks not taken out of shed (W F Collar) h a •280
Novel way to handle, at concreting plant (W S Tait) •457
Plastic cement resists locomotive blast 888
Portland cement, high silica a 14
Richard Hardy in the industry e 817
Skillfully packed for export n 1201
Stored in circular concrete bins in Duluth •401
Wooden trusses incased in cement to resist acid fumes and fire 891
Chapin, R D, on constructive woodwork a 1131
Charges for professional services (F E Davidson) 1 980
Charleston (S C) barracks for navy •4
Charleston typhoid due to water 445
Chattanooga bascule bridge erected as a cantilever (W J Howard) •170
Chattanooga Market Street bridge, a statement (B H Davis) 1 371
Chicago
Adopts city manager plan h 943
Adopts electric pumps for Calumet sewage station n 380
Confers on garbage piggeries n 1222
Felt-Tarrant building required 275 (not 27.5) cu yd per 8 hr day
Flushes streets over tops of parked vehicles n 327
Foundry a modern building of shop type •264
Makes surveys for land and lake tunnel •174
Municipal pier protected by breakwaters
Paving report once more in limelight n 1176 •162
Sanitary District adopts budget n 334
Street and sewer construction normal n 94
Tunnel lined by tunnel run rock concrete placed by compressed air 647
Chickamauga encampment made ready in two months •601
Chile wants Amer contractors for port improvements n 429
Chimney, Canadian Pac built of concrete blocks tied together 75
Chittenden, H M, on speed of water in relation to quantity 262
Chloramine solves aftergrowth problem in Denver reservoirs n 210
Chlorine disinfectant for anthrax in tannery waste n 539
Cincinnati
Commission proposed 56
Power station admirable example of clever engineering •593, e 577
University library walls decorated with engineering themes n •902
Water Dept builds concrete shells around steel water tanks •305
City commission for Clarksburg n 1004
City council or engineer to decide what material to use (E G Sheibley) 1 1074
City departments take best photographs of engineering work n 230
City engineers in Los Angeles and Portsmouth unfairly deposed e 147
City management does not mean municipal ownership (H M Waite) 1209
City managers, training of (M P Horowitz) 220 (Frederick Bass) 1 370
City planning laws enacted in Wisconsin (S J Williams) 208
City refuse service n 810
Controlled by State Health Boards (E D Rich) 779
Civil administration of Illinois n 747
Civil Service Commissions in eleven states n 601
Civil service examinations 1 802
Class prejudice intensified by Pres Barr's address e 951
Class prejudices must be sacrificed e 951
Clausen, John, on the rehabilitation of industry after the war 771
Cleveland
Campaign for good paving (N C Rockwood) •205
Engineering Soc against Commission ordinance 1 850
Opposes special commission to build subway n 715
Real issue as to sewage plans e 1085, 1128
Sanitary patrolmen 273
Sawtooth expansion joint for bridges •1160
Sewage screen plans withdrawn from Dept of Health 1128
Sewage testing station reports against fine screens e 290, 308
Sewer needs declared urgent by local engineers 1008
Street code 848
Subway construction •148
Closets under stairs dangerous as store rooms n 700
Clow W E, on cast iron pipe specifications 1 109
Coal
Baltimore and Canton coal piers radical departures •292
Coal and oil costs compared 7
Coal saving pointers apply to contractors' firemen h 1172
Concrete bunker for coke ovens on piles •1161
Fuel problem (L P Breckenridge) a 1125
Government barges take coal to St Paul n 332
Coaling plant delivers to self unloading barge in Milwaukee 511
Coal-tar pitch for waterproofing a 13
Code needed for design competitions e 953
Coefficient moments for concentrated loads (S M Cotten) •613
Cold storage building introduces new problems in concrete design e 907, •914
Coleman, C P, on association activities for the year a 1131
College professors answer four questions on outlook for engineering students 493
Columbus (Ohio) Engineering Club gets close to business men 892
Columbus makes money from garbage reduction works 1020
Column tests and formulas (R S Foulds) 260
Columns, hard steel for e 2
Commercial foresight e 1137
Commercial problems raised by war e 1041
Commission Matters
Alaskan Engineering Commission has discovered limestone n 464
Alaska Engineering Commission testing for bridge •394

•, illustrated; 1, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Commission Matters (continued):
Another city adopts commission plan e 721
Board of Estimates on N Y City West Side problem e 770, 810
Cincinnati proposed city planning commission 56
Federal Trade Commission building, special forms for concrete *28
Federal Trade Commission to fix prices e 99, 106, 107
Highway Commission Engineer C A Carruth on macadam roads 1 850
Interstate Commerce Commission divides its duties 811
Interstate Commerce Commission fails e 3
Interstate Commerce Commission recommendation to Congress e 1087
Interstate Commerce Commission should aid railroads e 818
Interstate Commerce, should it be remodeled e 50
Iowa Highways Commission recommends cooperative purchase of road materials e 386
Maine Commission sees through two valuation fallacies e 242
Maine Highway Comm on gravel road maintenance *1193
N J Highway Commission on convict labor 10
N Y Public Service Commission and the subway e 819
N Y Public Service Commission on West Side problem e 770, 810
St Louis City Plan Commission *100
Company housing in the United States n 933
Compass lines, magnetic, new data available for checking 590
Competitive designing like contract bidding should be safeguarded by law e 953
Compressed air practice in mining (David Penman) 563
Computations for right of way (P E Stevens) 439, 1 659
(R B Collins) 1 984
Concrete (in Water)
Assn and Institute join in barge designing 1126
Floating dock on concrete pontoons, Zürich *848
Floating foundations carry two concrete buildings *826
Ledge of, to counteract settling of approach fills (Willis Whited) 1 371
Plant for concreting circular reservoir h *280, *251
Reinforced concrete sill foundation for brick bank protection 889
Reservoir at St Paul has unique side wall design (W N Jones) *927
Ship record to date e 907
Shipbuilding in Norway *1088
Slabs slide to place to close dam n *566
Traveling derrick below New Mexico arch dam handles concrete *1066
Trestles have I-beams and rails in slabs *591
Waterproofing materials for *740
Well sunk by open caisson method (C B Coe) *460
Concrete (in Sea Water)
Does waterproofed concrete resist sea water (Toch Brothers) 1 1212
Discussion (R J Wig—L R Ferguson) e 1212
Facts on sea water concrete e 531, *532
Good workmanship needed to make sea-water concrete safe (R J Wig—L R Ferguson) *641, 674, *689, *737, *794
Piles driven for navy *62
Plain sea water concrete must be protected against abrasion (R J Wig and L R Ferguson) *841
Sea water reinforced concrete fails 689
Sea water, selection of materials for (R J Wig and L R Ferguson) *737
Two important factors in designing e 674
Concrete (Problems)
Balcony of theater has novel framing *1011
Building, fire wrecked, repaired for use *222
Building has long span girders and floor *1024
Circular slide rule for figuring 48
Cold storage building introduces new problems in design e 907, *910
Effect of consistency on concrete strength a 15
Higher shear values for beams *749
Largest concrete building yet constructed (W J Knight) 772
Philippine government to analyze bad concrete n 694
Reinforced concrete a 12
Reinforced concrete building has 2000 pound floor load *1065
Reinforced concrete frame of building carries wooden floor *1055
Seventy concrete buildings in one year n *861
Specifications for Akron bridge have some special features 661
Speed in making tests a 16
Tests on concrete by calcined sand (A C Arend) 1 609
Tests show effect of hydrated lime on strength of n 328
Unusual factory layout designed to simplify operation *1016
Warehouse erected in six months n *267
Concrete Construction
Bar bender plate and staggered legs on horses expedite concrete work h *898
Bottom dump bucket for underwater job (E S Needham) h *233
Buckets and spouting hopper on flat car place sewer concrete h *1030

Concrete and fill placed quickly by car and incline (G W McAlpin) h *985
Concrete heart wall in earth dam, Oregon 45
Covered channel for a creek *17
Derrick wrecks roofs and floors of buildings *1208
Diagrams facilitate design of retaining walls (S H Smith) *20
Diagrams useful in designing forms (A N Laird) *454
Floor panel form permits removal of column forms h *942
Floor slabs distribute loads to steel bridge stringers (C T Morris) 1 803
Formulas for excess volume in flared column heads n *758
Frozen in floor slab has low tested strength (S E Thompson) *879
Good record in casting concrete piles *117
Homemade 6 yard dump car h *1077
In cantilever studding, forms for La Loutre dam, Canada h *426
Interlocking blocks tied together make chimney (W S Winters) *75
Ladder clamps save time on forms (J G Grossman) h *41
Oak cylinder head for injured hoist (J G Sullivan) h *1216
Oval spacer blocks save time in high wall forms h *664
Plant handles cement in novel way (W S Tait) 457
Plant places backfill in Brooklyn h 808
Pressure line for Dallas sewage works (R Gould) *22
Roof finished by hose and roller h *811
Shells around tall steel water tanks *305
Shuttle car carries concrete to forms in Rochester h 1121
Six-foot pipe rolled to trench *852
Special forms for light T-beam floor system *28
Steel forms require minimum shoring n *480
Steel frame hall forms top story *1103
Upper floor of concrete building carried on bracket *827
Torches and fire tests on concrete columns and floors *1218
Wooden house encloses steel frame for cold weather work h *472
Concrete Contracts and Costs
Bids for arch viaduct less than steel design *73
One contract job for 100 concrete houses (L H Allen) *442, 1 657
Void theory to include costs a 15
Concrete Mixing
Aggregate boxes dumped by chain hoist into paving mixer h *521
Blast furnace slag a good concrete aggregate 517
Extra length of pipe reduces fitting in mixer supply line (H H Edwards) h 898
From mixer to forms, pneumatic method, San Francisco 69
Hydrated lime in field concrete (W E Emley) 1 515
Hydrated lime permits detection of undermined concrete (N G Hough) 81
Larger blast for aggregate, special loading and firing *446
Materials delivered via cross streets to industrial cars on subgrade h *899
Materials handled by existing coal plant in Cincinnati *593, e 577
Mechanical loading eliminates laborers *1112
Mixer engine used to load up (H F Van Scoyoc) h *1173
Mixer, side discharge, moved round to grout pavement h *711
Motor truck dumps five consecutive batches into mixer skip h 1217
Must be well worked (W G Chace) 1 708
Road batches made up at hoppers *456
Sand and gravel mixed before they reach mixer h *1120
Specific gravity of fine aggregate a 16
Three batch cans supply mixer from gondolas (J C Foss, Jr) h 140
Use of limestone screenings in (W M Kinney) 1 421
Concrete Paving
Base is laid on old paving in Chicago 702
Brick laying on concrete base (C C Wiley) *820
Bridge flooring with concrete slabs on steel beams 65
Curb rests on reinforced pavement base *961
Defective bridge floor surfaced with brick 1002

Tribute to Staff 679
Smith, Somers H, on need of diagrams in constructing concrete retaining walls •20
Smoley's parallel tables of slopes and rises (C K Smoley) 562
Snaith, William, on bridge flooring with concrete slabs on steel beams •65
Snow measurements to forecast floods n 967
Social vs technical programs for society meetings e 673
Societies
A clear note on service e 1181, 1206
Alfred D Flinn, secretary of the United Eng Soc e 1182, 1219
American and Canadian to coöperate n 1175
Soc Prom of Eng Education on standard symbols for mechanics and hydraulics 1113
Twin cities have extremes in engineering societies 1116
Western Penna Engineers Society (K F Treschow) l 1214
Society Activities
Amer Soc for Testing Materials errata (C L Warwick) l 178
Do not recognize war opportunities on programs e 951
In Brooklyn 176
In Oregon 35
In St Paul 176
In San Francisco 35
In southern California 35
Meetings should not be postponed e 1
Russian Society of Engineers gets recognition 811
Technical societies and manufacturers (H Y Carson) l 178
Sohier, Col W D, on military and other highways in war time 1093, 1131
Solar shadows determine meridian (C M Bell) (R E Davis) l 1073
Spacer blocks save time in high wall forms h •664
Spacing of stitch rivets (A W Moseley) l 755
Specifications
British Eng Standards Committee revises periodically n 471
Bu of Mines on gasoline n 279
Fifty-seven submitted to Amer Soc for Testing Materials a 11
For cast iron pipe e 433
For extra work paving in Miami (O) (James Ritchie) l 983
Liquidated damages in highway 659
New, for Ohio State roads 156
Topographical surveys of drainage districts (J B Marcellus) l 1117
Spokane grade crossings eliminated by raised line •415
Spokane installs low cost street signs n 327
Springfield (Mass) sells garbage to farmers for hogs n 381
Stack, steel, erected by ditcher n •757
Stadia surveys in Columbus (O) rapid (L R Howson) 606
Stadia surveys should be supplemented by field notes (A M Shaw) •230
Stake out for bridges simplified by clear form of notes (E P Arneson) n •469
Staking buildings at aviation field simplified (J E Smith) •932
Staniford, C W, on handling freight on N Y City new pier •1058
Stand for instruments eliminates boxing at night (G W McAlpin) •971
Standards of bolts and nuts (G E Thackray) l 659
State engineering uncoördinated e 1183
State Health Boards should control city refuse service (E D Rich) a 779
State public health laboratories in war time (Henry Albert) a 777
State sanitation (G C Whipple) 130
States should buy road materials in bulk and store for next year e 1042
Statler hotels minor structural details 790
Steam jet cleans coagulant lime n 328
Steam jet cleans concrete sheet piling grooves h •1076
Steam jets thaw hard frosted ground for shovel (H P J Earnshaw) h •519
Steam jets thaw frozen ground l 659
Steel
Arches submerged by dam to be protected •1195
Bars handled by roller conveyors h •1030
Bars, munition, twisted as best for reinforcement (M V Sauer) l 1119
Can properties of steel products be determined by magnetic analysis (C W Burrows) a 60
Committee report e 11
Finding the yield point in (H F Moore) a 16
Long span trusses for hall to top concrete building •1103
Magnetic testing of e 2
One structure failed and another stood (R Fleming) n •565
Rolled steel beams for Philadelphia subway walls (Henry Hyman) •314
Salvaged steel shows 75 per cent saving n •709
Scrap declines in fixing steel prices n 857
Sheeting sharpened h 37
Skeleton structure inclosed in wood for cold weather work h •472
Steel forms require minimum shoring in concrete buildings n •480
Steel, hard, for columns e 2
Steel and iron embargo affects Canada n 763
Steel rails, worn, reclaimed •64
Steelwork of Brush exhibition building, N Y City •724
Tape, long, of Bu of Standards (D P Babcock) l 984
Tower of Penna freight station, Chicago, unusual •636
Water tank, new, on base of old brick tower •448
Waterwheel casting suffers from chemical wear n •85
Steinman, D B, on temporary hinges in concrete arch erection 213
Stevens, P E, on new method of computing rights-of-way 439
Stitch rivets spaced for bending (P J Markmann) l 228
Stone cubes used in Dayton to pave steep grades n •565
Stream discharge computed and plotted by drafting machine (W Nimmo) •660
Streets
Chicago flushed over parked vehicles n 327
Cleaners, vacuum, used in Missouri cities •465
Code for Cleveland 848
Grades at complex intersections shown by models •1114
Improvement surveys need good equipment (M Y Crowders) 231
Signs show house numbers in Cincinnati n 373
Spokane low cost signs n 327
Storm water drain tested by heavy storm in Ogden n 516
Stresses, high residual, in pulp mill digester shells 887
Strike on railroads avoided e 995
Structural shop has well planned framing and layout •362
Stuart, F L, on necessity for seaboard and interior storage n 1175
Students should observe (C H Kluegel) l 559
Subscribers abroad should send addresses for the News-Record e 193
Subways
Diagrams for design of subway walls (Henry Hyman) •314
Times Square tangle 819
Surveyors' instruments placed in special stand at night •971
Surveys for street improvements need good equipment (M Y Crowders) 231
Surveys, precise level, small motor cars used (C L Edholm) •660
Surveys, topographical, of drainage districts (J B Marcellus) l 1117
Sutcliffe, E G, on study of English by engineers 599, 674
Swain, G F, address at welcoming meeting a 1144
Symbols, standard, for mechanics and hydraulics 1113
Syracuse canal terminal over old salt flats •548
Syracuse uses tile drains under street curbs n •758

T

Tables of cubic contents of levee embankments (A A Stiles) 563
Taft, W H, on reserving engineers for technical service to aid war a 1123
Tait, W S, on mill design controlled by machinery and footing complications •885
Take down wooden houses needed for France n 474
Tanks cut in two to pass drawbridges (E Danenhauer) h •1172
Tanks, steel, fabricated, shipped and erected in 30 days h 329
Tannery waste disinfected for anthrax n 539
Investigated by U S Pub Health Service e 529, 553
Studied 553
Task which confronts America e 1041
Technical men get no apology e 241
Technical vs social programs for society meetings e 673
Terminal facilities carried with goods e 1085
Terminals, Government to build new n 140
Testbook on brick pavements (C R Mandigo) 563
Tester for gaps between viscosimeter and penetrometer •231
Tests and Testing
Activated sludge tests made by California cities •1009
Activated sludge test made by Lawrence Experiment Station e 817.
Tests and Testing (continued):
Calcined sand used on concrete (A C Arend) l 609
Concrete beams for high shear values (W P Anderson) •749
Concrete floor tested to destruction in Chicago 597
Concrete roofs and floors wrecked by derrick •1208
Condensation under various types of roofs (F P Sheldon & Son) •29
Distribution of vertical loads through earth fills (A T Goldbeck) •116
Drinking fountains •612
Fire and load tests of columns in Chicago Lab •215
Heat insulating properties and fire resistive material (W A Hull) a 60
In air diffuser tests filtros plates made best showing 269
Laying brick directly on concrete base •820
New Haven makes five tests of sewage processes 829
Oil treatment of wood against marine borers •833
Portland tests on nailed joints in fir and hemlock timbers •871
(H D Dewell) l 1211
Speed in making concrete tests (D A Abrams) a 16
Tannery wastes studied 553
Torsion testing machine improved (D J McAdam, Jr) a 16
Waterwheel reversed to absorb energy during test 1023
Wedge-shaped test pieces (J A Capp—F A Hull) a 16
Texas convict labor and patrol system for roads 801
Texas Highway Dept to spend millions on roads •1068
Texas highway financing needs reform 632
Texas law prohibiting watercourse pollution •742
Textbook of roofs and bridges (Mansfield Merriman) 560
Textiles a 13
Theater of concrete has balcony wtih novel framing •1011
Thompson, Sanford E, on low tested strength of frozen concrete •879
Thomson, T K, on development of Niagara by international agreement l 125, •252
Tile and Tiling
Building tile manufacturers form association 575
Drain tile a 13
Hollow building tile a 13
Title, the engineer (Emile Low) l 369
(E W Robinson) l 706
(H Berents) l 981
Toledo high pressure fire protection system •414
Tomlin, R K, Jr, on engineering team work at Camp Upton •340, e 337
On surface water supply for Camp Dix •436
Tongs, special, to hold rails when handled h •616
Tonney, George E, on seagoing hydraulic hopper dredge •881
Tool box with watertight lids (F J Lees) •853
Topeka utilizes garbage in new piggery •890
Tornado losses, providing against (S H Ingberg) e 721, 733
Toronto, turbine centrifugal pumps establish new record 168
Tower bôth elevator and derrick by simple contrivance (G E Harr) h •184
Tower derricks mounted on railway cars (Norcross Co) h •137
Tower of Penna steel freight station has clock and water tank •636
Trackless electric locomotive with dumping body n 720
Trade disputes, regulation of (H W Garrod) 959
Trade secrets protected by Supreme Court decision (E J Prindle) l 468
Traffic
Fifth Ave, N Y City, averages 28 vehicles a minute n 369
Regulations should be drafted by Highway Commissions (A N Johnson) 690
Semaphore, "Go-Go," shades policeman n •469
Training city managers (Frederick Bass) l 370
Tramway cable transports and erects own bents h •185
Transit leg scale fixes height of instrument (Halvernberg) n •279
Transit needles, variations in (W Newbrough) l 1119
(O H Tripp) l 1213
Traveling crane, new type, handles pier coal h •950
Trees should be raised by water works e 435, 463
Trenches dug by plows and scrapers (M H Doyne) h 135
Trenching machines in camp making e 433
Trestle
Cantilever, concrete bents carry steel spans •1107
Dumping, on rollers h •89
Easy to move and store (E Schwartz) h •331
Erie RR has I-beams and rails in slabs •591
Sewer pipe trestle saves future excavation (G W McAlpin) h •233
Trinitro-toluol to replace dynamite 1056
Truck trail wagon has bottom dump n 1084
Truck trailer automatic hitch 816
Trucking submarine sections through N Y City streets •828
Trussed booms mounted over columns double speed in erecting steel (L R Talbot) h •985
Tunnels
Brickwork after sixty years 24
Carriage guides lengths of concrete in (A G Dalzell) h •863

•, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Tunnels (continued):
Conveyor tunnel roofed while in use (P R Prufert) h *615
Diversion dam tunncled from below and filled with concrete, Hawaii *417
Hetch Hetchy high bids rejected n 474
Lining of concrete made of tunnel run rock, placed by compressed air 647
Rapid driving in Black Hills limestone (H L Hicks) *1167
San Francisco pneumatic concrete mixer used for 69
Shandaken tunnel, Catskill water supply system, contracts let e 481, n 522, n 620
Tunnel contract criticized e 951
Six-mile Gunnison tunnel inspected by automobile n 114
Softened concrete lining to be repaired in 173
Surveys for land and lake tunnel in Chicago *174
Vehicle tunnel under Hudson River favored by commission n 1220
Turbines
Advice to turbine purchasers e 864
Runner designing (W C Pomeroy) *845
Turner, H R, on leadite joints and their economy 544
Turntable driver mounted both on land and on barge (H H Field) *853
Twisting munition steel bars a test for reinforcement (M V Sauer) l 1119
Typhoid at Charleston due to water 445
At Niagara Falls controlled by filtration *440
(C B Burdick) l 611
Honor roll of engineers e 723
Data in ten largest cities n 1070

U

Ultra violet rays finish treatment of Henderson water supply (A T Smith) *1021
U S Army
Airplane sheds have timber truss hangar roofs and no knee braces *447
Army camp bunkhouses (A M Shaw) l *226
Army camp construction (R S Kellogg) 27
Army engineers on active duty with Geological Survey n 144
Army now has enough engineer officers e 193
Aviation camp near Detroit *115
Aviation camp, Fort Worth, contract awarded n 477
Ayer cantonment work *196
Aztec asphalt exclusively for paving at Columbia cantonment (J R Draney) l 983
Barracks at Camp Pike erected in three hours *614
Big training camp plans published *8, 43
Bills for cantonments receipted before paid n *520
Buildings stepped to fit hillsides at Camp Gordon, Atlanta *500
Camp bunkhouse, Ayer cantonment h *232
Camp Dodge building advanced by railroads 300
Camp Meade road making engineers e 817
Camp Pike an army city in a wilderness *545
Camp roof trusses easily built n *229
Camp warehouses largely of plank construction *1159
Cantonment construction at Rockford Camp, Ill (W W DeBerard) *388
Cantonments near completion n 525
Chillicothe flat camp demands drainage (N C Rockwood) *298
Construction speedy at Camp Lewis (N A Bowers) *630
Curriculum for officers at training camps 68
Distribution by team, truck and railroads at camps e 482
Draft has effected enrollment in engineering schools *1001
Drafting of engineering students (P C Ricketts) l 1027
Engineering school should be enlarged e 1137, 1177
Engineers as officers e 50, 157
Fence posts driven by small pile driver h 942
Field forces doing splendid work on cantonments e 338
Five hundred teams in deep mud at Camp Lee, Petersburg 503
Food and other wastes to be saved by camps e 721, 731
Light motor trucks replace heavy on sandy soil n 790
Louisville cantonment follows suburban development (N C Rockwood) *412, h 427
Louisville cantonment roads built in record time h 809
Machines dig camp water and sewer trenches e 433
Magic of the cantonments e 531
Medical corps data a 777
Medical students and engineering conscripts e 995
Organization speeds work at Ayer cantonment *196
Payrolls at Camp Columbia made up in sections *520
Pine in camps amounts to millions of feet n 636
Portable pine houses for our army in France n 1127
Quartermaster General orders 30,000 war trucks overland to the ocean e 1137
Railway terminal at Camp Dix (W F Rench) *965
Receipted bill form of contractor becomes sight draft, checks not needed n *520
Road builder regiment at Camp Meade n 854
Road constructing engineers e 721
Rush army job at Camp Upton (R K Tomlin, Jr) *340, e 337
Sanitary corps created 421
Selfridge Field aviation camp has intake pipe from Lake St Clair n 521
U. S. Army (continued)
Southern Pine Emergency Bu receives largest lumber order in history 827
Staking buildings at aviation field simplified (J E Smith) *932
Standard plans for army camp sewage disposal *930
Stumps at Camp Upton pulled by Ford cars with cleated wheels h *473
Three Southern cantonments, logging roads (H D Hammond) *497
Three thousand applicants for road building regiment e 769, 810
Twenty thousand men housed in two months at Chickamauga *601
Vast amount of construction material required for camps 156
War construction accident risks heavy (C C Sherlock) 317
Water supply of Camp Dix (R K Tomlin, Jr) *436
What a camp for 40,000 men looks like *154
U S Bu of Labor company housing in the United States 933
U S Bu of Mines
Technical adviser on coal conservation a 1125
U S Chamber of Commerce war convention pledge e 577
U S Coast and Geodetic Survey booklet on checking magnetic compass lines n 590
U S Congress momentous session e 1041
U S Dept of Labor opens engineer employment agency 813

Waterways Board proposed in Senate n 186
Waterways commissioners should be engineers e 241
Kankakee River improved to drain marshes •1205, h •1216
Work to be done on river transportation e 1181, 1200
Waterwheels
Needle tips eroded by glacial silt n •229
Reversed to absorb energy during test 1023
Wear may be determinative e 49
Water Works
Arizona town outgrows its system 825
Charleston buys works of private company n 717
New England Assn
Convention, President's address and technical papers 540
Declines to consolidate e 529, 570
N Y State plants trees on watersheds 463
Probable life of elements 688
Pumping engines and other steam engines of E D Leavitt (F W Dean) 1171
St Louis survey made by pitometer (F L Bock) 76
Special rates to railroads e 195
Synchronous motors drive pumps in Camden n 1112
Trees may be raised as well as water supplied e 435, 463
Valve connection placed on tank-riser pipe at Louisville n •422
Water works valuation e 627, 633
Water yield estimated from rainfall data (R E Horton) •211
Rainfall, fifteen monthly types in U S •922
Weir, W J, on road maintenance in France 488
Welding, oxyacetylene, for track repairs n 749
Wells
Infiltration well supplies Ft Benjamin Harrison concrete reservoir •251
Unsanding of two wells (W C Hammatt) •823
Well sealed in Saratoga changes from soda to salt (C G Anthony) •451
Wells (continued):
Wells or boreholes help to drain irrigated shale land (Bull 502 Dept of Agric) 120
Welty, H T, on repairs to worn bridge pin bearings under traffic •244
West Genesee street bascule corrections (A G Hayden) 1180
West Va miners housed in single frame buildings (C S Rindsfoos) •1191
Westinghouse Company announces wage increase 815
Weston, R S, on mechanical filter bottoms and strainer systems 543
When to haul, to waste and to borrow (W C West) 260
When public work is not public work e 145, 190
Whinery, S, on paving parkway drives and boulevards 746
Whither are we going e 997, 1213
Whittaker, H A, on Minnesota filtration plants 1125
Wig, R J and Ferguson, L R, on sea water concrete e 531, •532, •641, e 674, •689, •737, •794
Wight, Frank C, on the prospects of navigation on N Y barge canal •348, e 339
Wiley, C C, on brick laying on concrete base •820
Willow root stops water main h •36
Wind storm effects on structures (S H Ingberg) e 721, •733
Window frame clamp saves time and room (J E Langley) n •569
Wing wall at Buffalo designed to limit base pressure •1054
Winters, W S, on concrete block chimneys •75
Wire clips hold forms for concrete h •950
Wire mesh instead of cable in western suspension bridge •1026
Wisconsin
Architects must register 307
Centralized engineering succeeds (S J Williams) 791
Enacts three notable city planning laws (S J Williams) 208
Wisconsin (continued):
Highway Commission
Collects data for new trunk route system •920
Experiments with asphalts, tars and tar with hay 1002
Urges maintenance of roads 888
Wishart, J G, on making valuation records permanent •695
Women draftsmen
Replies 182, 182, 183
(W L Hill, Jr) 1275
Women employed and skilled labor diluted in England (G H Baillie) 958
Women in the work shops (F E Blake) (C B Lord) (J W Upp) a 1123
Wood, Maj Gen, on military roads 1097
Wood, Walter, on cast iron pipe specifications 1109
Wooden beams, simple rule for strength of (W J Howard) 1015
Wooden floor carried by concrete frame of building •1055
Wooden ships supported (O P M Goss) 1 •609
Wooden trusses incased in cement to resist acid fumes and fire 891
Wooden twister for form wires (J E Langley) h •521
Woods, tests on nailed joints in fir and hemlock timbers •871, 1211
Workmen's compensation on war construction a heavy risk (C C Sherlock) 317
Wrentmore, C G, on low movable dam in Philippines •919

Y

Yaphank cantonment construction, a rush job (R K Tomlin, Jr) •340, e 337
Yardage, riprap, measured on scows by average voids and displacement (J H Sawkins) n 422
Yield point closely determined by extensometer n •576
